Up your game with DIO **VUV** Activator!

Experience the miraculous 1 minute!

- With 1 minute of VUV photoactivation, organic matter is removed from the implant surface, resulting in a truly hydrophilic surface
- Promotes fast and stable osseointegration
- Maximizes initial stability and improves bone to implant contact

Who will benefit from VUV active?

- Elderly patients with weak or insufficient bone
- Patients who need faster healing
- Patients who require immediate implant placement after extraction.
- Patients with past implant failures
- Cases with immediate loading
